

LOCAL AND GENERAL.

The electric light has been resumed in all parts of the Hawaiian Hotel.

An eighteen-foot whale of the "Killer" variety is reported to have stranded at Lahaina.

The Winkelman took 864 letters and 451 papers, and a small mail was sent by the Steamer.

Reports of damage to person and property from the toy catapults in juvenile hands are very common.

Messrs. C. Brewer & Co. announce that the well-known bark Amy Turner will be on the berth in Boston for Honolulu, to sail in July next.

A notice of the Commissioner of Boundaries of the Second Judicial Circuit, elsewhere, is commended to the attention of all concerned.

The young hammeek-maker, Mullen, carries that occupation now in his spare hours, having begun to learn shoe-shining at Mr. Cayford's forge.

The Queenslander, on the occasion of the American baseball players' visit, published an excellent diagram of a diamond field with full explanations of the game.

Messrs. C. Brewer & Co.'s new steel bark Fishhook Sloop, 1,035 tons, Capt. Newell, arrived at San Francisco February 4th, having made the passage out in 123 days from Glasgow.

A concert by way of welcome to the numerous band of tourists present in the city was given by the Royal Hawaiian Band at the Hotel from 8:30 to 10 o'clock Thursday morning.

The few last inmates of the Reformatory School are, under the direction of Superintendent Needham and Assistant Adams, making the school lot take on a productive aspect as a horticultural garden.

Capt. Lee of the bark C. D. Bryant was called to a Chronicle reporter that he was willing to accommodate Capt. Blom of the bark W. S. Bowne with a race to Honolulu and back, but would make no overtures to him.

A large fire away up in the Kalihi mountains attracted the attention of many people in town Thursday. It displayed several bright tongues of flame. One remark heard was that natives had started the fire to bring down rain.

George Patterson had his hack wrecked in Alakea street Monday evening, by coming in contact with a post, while trying to clear a hack coming in the opposite direction, the road being made very narrow by the tramway construction.

Mr. William Friedenberg was driving Mr. P. Leslie's buggy with two ladies in it across King street, at the Metropolitan Market, when a wheel was dished on the tramway rails so badly as to clean the spokes off the hub. Nobody was hurt.

Hon. James Campbell's three Shetland ponies came up from Kahuiku Ranch on Thursday. They were clipped at the Pantheon Stables and shod at the City Shoeing Shop. The ponies after all this toilet looked as sleek and lively as mice.

The city electric lights went out at 10 p. m. Thursday for lack of water. The streets were left dark as Egypt. Heaps of building material unlighted on the sidewalk and roadway of Fort street made that thoroughfare dangerous for walkers and drivers.

There was no quorum at the Debating Society Thursday evening. One of the leading orators was discovered about 10 o'clock in another literary circle uptown. The Marshal will have to summon a meeting of the society shortly to declare a dividend on the rent bill.

An extensive bush fire was raging all Tuesday afternoon and evening on the foothills and slopes of the mountains on the Kalihi side of Nanuanu Valley. Vast volumes of smoke rose to the summits and then spread away, completely filling all the valleys and gulches to windward.

The steam roller was working on King street, Palama, Friday. A large force of men with horses and carts were engaged in filling in the road beside the tramway. It was not uncommon during the day to see a long row of carriages waiting several minutes before getting past the focus of operations.

It was good for the looks of the town when repairs were forbidden recently to the wooden shanty at the corner of Merchant and Nuuanu streets. The roof is now going on a two story brick building on that site, which, if not particularly gorgeous in architecture, is no disgrace to the locality and reduces the risk of fire in that quarter.

Geo. Baker's horse ran off with his hack on Queen near Alakea street, on account of the bit breaking, on Friday evening. Turning the corner into Fort street the carriage upset in front of the Campbell block and was pretty badly wrecked. Mr. George Naawaoka was a passenger and being thrown out received some scratches in the face.

Osman Day, who came here from the Colonies and tried to start a labor organization, also attempted to get away with Moses and the prophets on the platform, has been dismissed on his own recognizance in San Francisco, after detaining seven months on a charge of robbing Annie Watson of a diamond cross. The police searched long and vainly for the fair complainant, so that nothing but dismissal of the defendant remained.

Mr. Oscar Brauch and Miss Caroline Nott were married at the residence of the bride's parents, Mr. and Mrs. John Nott, King street, Thursday night. Mr. Horn made a handsome wedding cake for the occasion, circled with birds, festoons and flowers in sugar, and surmounted with statuettes of a couple under a floral canopy. All the sugar ornaments were handmade in that artistic confectioner's unsurpassable style.

The largest attendance that has yet been present at an organ recital in Kaimukapu Church was given the combination of that event with the sacred concert by Signor Campobello, Miss Grace Porter and Messrs. Throver and Schmidt. These musicians, together with Mr. Wray Taylor, organist of the church, performed their respective numbers to the gratification of the audience. The King, Princess Liliuokalani and the young Princes were there.

The Oahu College branch of the tramway was opened on the 20th.

Annual meeting of the Inter-Island Steam Navigation Company takes place March 5th.

The Myrtle Boat Club crews were out practising on Friday evening. They will have a six-oared race among themselves in two weeks.

Mr. J. W. Luning circulated a subscription paper on Monday and raised \$300 for the relief of Mr. E. R. Ryan in his heavy loss by fire.

The yacht Helene is now in the water, but has not yet been fitted with her mast. She sits beautifully on the wave and looks to be hard to beat in a race.

Professor Melville's balloon ascension will take place next Saturday. Mr. D. W. Pratt, formerly keeper of a restaurant on Fort street, is manager for the aeronaut.

Col. Thompson happily having nearly recovered from his recent severe injuries by accident, has resumed work on his "Digest of Hawaiian Law" besides his regular practice.

Mr. T. P. Severin on Friday took several photographic groups of the Roman Catholic Sisters' School. The principal one included the whole school, numbering about 350 persons.

Mr. Ollett, pianist in the Campobello company, is an expert engraver. He has just executed a wood cut to illustrate Prof. Melville's balloon ascension advertisement in the papers.

There were twenty-two arrests on Saturday and Sunday up till 10:35 p. m. the latter day. The charges were sixteen drunk, two assault and battery, three gaming and one violating carriage rules.

Mr. P. H. W. Ross, after a week's visit to the city, left for Hawaii by the W. G. Hall. He intends shortly to leave the Islands and take up his abode in Washington Territory.

J. J. Lyett of Honolulu is reported in the Chronicle as having won a swimming match with W. Bartlett of San Francisco, on Oakland creek, fifty yards, for \$50 a side.

The Brig Consuelo, Captain McAlister, claims the honor of having made the best round trip on record between San Francisco and Kahuiku, namely, thirteen days, and the employees of the line intend presenting him with a valuable memento.

All who feel an interest in the progress of free institutions will rejoice in the official information conveyed through the Foreign Office, that the Empire of Japan has had its Constitution proclaimed by the Emperor in person amidst great popular enthusiasm.

The "Planters' Monthly" for February is out. Elsewhere will be found the table of contents, showing an important number. "Improvement of Sugar Canes," is an article that will probably yield good fruits. There are enquiries for the Monthly coming now all the way from Europe.

A report of the movements of sealers in the Alta of February 6th says: "The Triumph" commanded by Capt. Dan McLean, brother of the master of the Mary Ellen, leaves Victoria on the 20th inst. with forty tons of telegraph wire and 700 poles for Honolulu. This is for the cable system.

The Board of Education has resolved to build four more new school houses—at Kalihi in the district, at Waialua on this island, at Kaula in Honolulu, and at Kaimukapu, Molokai. The new school at Kaula (School street) is already crowded, so that an additional building is necessary.

The mercury in the thermometer dropped to 55 degrees at 6 o'clock on Tuesday morning, the lowest it has been observed here this winter. Some twenty or more years ago, during or soon after a cold winter's storm, it fell to 53 degrees, which is the lowest point it has ever been recorded in Honolulu.

News was received by the Mikahala of a fire at Koloa last Friday morning, which consumed about five acres of cane. The laborers, under the charge of Manager A. Cropp, were burning trash near the fields, when the wind suddenly shifted, and the sparks were carried to the fields.

The arrival of the schooner Ke Au Hou was anxiously expected at Napoona, Hawaii, when the W. G. Hall left there. She has the material for two new school houses in South Kona, and her departure hence was advised to the contractor. The schooner, however, only left Lahaina on Monday week.

Mr. Bossenont d'Anglade, French Commissioner, was presented to Her Majesty the Queen and Prince David Kawananakoa on Friday morning at the Palace. His Majesty was present, and Mr. James W. Robertson, Vice Chamberlain, introduced the distinguished gentleman. The Queen was attended by the lady-in-waiting, Mrs. James W. Robertson.

H. B. M. S. Cormorant, Captain Nicolls, which left here Wednesday morning for Kamae, arrived at the latter place the same afternoon. Soon after her arrival there, she sent several shells at the Waianae hills. On the following day she left for Kamae, arriving at Hanalei on Friday morning. Her next port was Waimea by way of the Kaula cliffs.

The U. S. S. Monongahela, ordered to Samoa as a store ship, will have a complement of about two hundred men. She goes to her destination direct, not even touching at Honolulu unless stormy weather and adverse winds should render it necessary to replenish her supply of coal. So Commandant Belknap at Mare Island is reported to have said. The U. S. S. Mohican, before leaving for Samoa via Panama, had her old battery replaced, the new one not being received.

A great many American flags were flying from private houses on Friday in honor of Washington's birthday. All the Government buildings displayed the Hawaiian flag, and the various foreign legations and consulates showed their respective colors. The U. S. S. Alert and the American bark Alex. McNeil dressed ship, while many other vessels hoisted more or less bunting. The Royal Hawaiian Band serenaded Minister Merrill at the United States Legation in the morning.

Three more Chinese departed than those who entered the Islands in 1888.

A large number of the visiting tourists will make the volcano trip by the steamer Kinahu leaving to-day.

The Kinahu had a very large cargo of sugar, but not her largest on record by two or three thousand bags.

The cars were inadequate for the Wai-kiki travel on Sunday, and more people piled on each two connected cars, drawn by one pair of mules, than was strictly just to the animals.

A lady inspecting articles in a dry goods store Saturday night discovered a lace curtain scorched from being too near a lamp, thus probably preventing the occurrence of a blaze.

Mr. Marriott, engineer at Laupahoehoe mill, Hawaii, and the wife, on Wednesday last broke his left leg between the ankle and knee, by slipping on a ladder in the mill. He was brought to town by the steamer Kinahu and taken to the Queen's Hospital.

Signor Campobello sang Sullivan's "Lost Chord" in Kaimukapu Church at the Sunday evening service, in a manner, it is said by competent judges, such as that vocalist has never surpassed in this city. There was a large congregation, including many strangers.

The Hawaiian Blue Ribbon Temperance League had a large attendance at its last Friday evening meeting. The members commissioned to start a Temperance League at the Leper Settlement reported its successful organization with 75 charter members. The total membership on the island of Oahu was reported at 1,240. The statistics from the other islands are now being collected.

Mr. F. W. Damon has been most devotedly assiduous in seeking the religious welfare of the two Chinamen under sentence of death for murders committed in Kona and Puna. Last Saturday afternoon they received baptism and partook of the communion. They professed to be trusting for forgiveness to Christ's proffered mercy, and hoped for forgiveness from any whom they had wronged, wishing to extend to others the same forgiveness they asked for themselves.

The Lahaina wedding mentioned in advance in the P. C. A. without names was that of Mr. W. Lowrey Deotte and Miss Sarah Horner. They were married Friday evening at the residence of the bride's parents, Mr. and Mrs. W. Y. Horner, the officiating clergyman being Rev. W. H. Barnes. A grand wedding reception and supper, very numerous attended, followed the ceremony. The happy couple came to town by the steamer Kinahu to spend their honeymoon.

KAPOLANI PARK ASSOCIATION.

Election of Directors and Officers at Annual Meeting.

The annual meeting of the Kapiolani Park Association was held Wednesday, when the following Board of Directors was elected: Messrs. Jas. Campbell, A. S. Cleghorn, Tom May, Cecil Brown, W. M. Giffard, H. J. Agnew, Wm. G. Irwin, H. R. Macfarlane, T. R. Walker, E. S. Cunha and H. J. Nolte. At a meeting of the Board the following officers were chosen for the ensuing year: Hon. A. S. Cleghorn, President. Hon. Cecil Brown, Vice President. Hon. W. G. Irwin, Treasurer. Mr. W. M. Giffard, Secretary.

George Washington Concert.

The George Washington concert by the Royal Hawaiian Band at the Hawaiian Hotel on Friday evening was exceptionally enjoyable, particularly to the old timers, from the large proportion of American patriotic airs composing the programme. With colored lanterns over the whole front of the building and incandescent electric lights throughout the trees and shrubs on the lawn, the scene itself was one to make a delightful reminiscence.

After the concert Professor Berger laid down his leader's baton to play the piano for dancing in the parlor. The hall was suspended soon after the opening for a complimentary concert to the Hotel guests by Signor Campobello, Miss Grace Porter and Mr. Ollett. Miss Porter sang in fine voice an air from "La Traviata," also "The Last Rose of Summer." Signor Campobello in his masterly style vocalized an air from "Sonnambula." Mr. Ollett gave some choice selections on the piano. Dancing was afterward resumed and kept up for some time.

The Campobello Benefit.

A large and fashionable audience attended in the Opera House on Saturday evening, on the occasion of the benefit to Miss Grace Porter and Signor Campobello. The members of the operatic company of which the affable Signor is the head, as well as the local musicians who assisted according to announcement, did exceedingly well. The result was a splendid concert from beginning to end, which was from eight to ten o'clock. The Royal Hawaiian Band were seated in full dress uniform on the stage, materially enhancing scenic appearances while aiding much in the great success of what may fitly be described as a rich musical banquet.

Departure of the Alert.

The U. S. S. Alert weighed anchor at 5 o'clock Friday evening, the ship at the same instant speedily disrobing of the Washington anniversary full dress. The Alert steamed out of the harbor for a cruise round the group, with His Excellency Geo. W. Merrill, United States Minister Resident, on board. Captain Bates, formerly of the steamer W. G. Hall, went as pilot of the Alert, and nobody could probably be found who knows the coasts better. There is now, for the first time in about two years, no warship in Honolulu harbor.

Parcels Post with the States.

The public will be glad to find that the advertisement of the Parcels Post Convention, agreed upon between the Hawaiian Kingdom and the United States appears in this issue. It marks a new epoch in the postal arrangements subsisting between this country and its great neighbor, and besides being a great social convenience is likely to materially promote trade.

A KOHALA BUDGET.

Complimentary Dance—A Loss to Society—Weather—Police—Roads.

The most enjoyable dance of the season occurred at the Kaiopii Hall on the evening of the 19th inst. There were present sixteen ladies, and, as usual, an overplus of men. The evening was so decidedly cool that overcoats were in good demand, and the wind being a "kona" was in just the right quarter for the comfort of the trippers of the "light fantastic." At 10 o'clock, or thereabouts, a fine collation was served, and dancing resumed until 12 o'clock. There were four or five couples who indulged in the round dances, and more would had they known how. The company was composed of Kohalates with the exception, so far as we know, of Mrs. James Renton of Hamakua, and Mr. Sproull from Honolulu.

This dance was given as a farewell send-off to Mr. Ballentine, who has recently severed his connection with Hawaii, where he has been engaged for the past year. During that time he has made many friends here, and as far as we know, no enemies, and we shall all miss him, in our business and social relations, and do not know where or when we will be able to secure such a skillful and good-natured "caller off," but our loss is some other district's gain, even though we do not derive much satisfaction in the thought.

There seems to be a dearth of news, of any particular importance. To a greater or less extent we are all interested in the Samoan war, and many are wondering will "John Bull" and "Uncle Sam" back down. We are very "dry," and the planters anxious for rain. The wind for the past week has been about as changeable as an Iowa zephyr, in four points of the compass the same day. No appearance of whooping cough yet, although we are still in dread of it. Nearly everyone is indulging in a real old-fashioned, sneezing, blowing, coughing cold, caused by the antics of the frisky old lady, "Dame Nature."

By the way, Rip Van Winkle must have taken up his abode in our midst. Witness an event that occurred nearly two months since, viz., the accident to Mr. and Miss Hall, has just been chronicled by the old gent.

Deputy Sheriff Spencer is very active in ferreting out the gamblers, opium smugglers and whiskey sellers, and we are inclined to the opinion that Mr. Hitecock did an exceedingly good thing when he effected the change in deputies. Our roads are being put in first-class condition, and as soon as Lahaina is "grafted" grinding, we will see them at work on the new Waianae road, which they will soon convert into a fine carriage drive. Mr. Wood is entitled to great credit for his untiring zeal in pushing forward the good work. Good roads are factors in developing a country equally with Christianity, and should go hand in hand.

There have been no more candle fires of late, in consequence of which C. B. now takes his customary naps, from 8 p. m. to 5 a. m. For fear of calling a frown to your "marble brow" we close.

Woman Suffrage in Massachusetts.

Once more I earnestly recommend as an act of simple justice the enactment of a law securing municipal suffrage to women. Recent political events have confirmed the opinion which I have long held, that if women have sufficient reason to vote they will do so and become an important factor in the settlement of great questions. If we can trust uneducated men to vote we can with greater safety and far more propriety grant the same power to women, who, as a rule, are as well educated and quite as intelligent as men.—[Gov. Ames' Message.]

The Hungarian government has directed that greater attention be paid to the teaching of German in the schools.
